

(A) “Benchmarking Information” shall mean information generated by Portfolio Manager, as herein defined including descriptive information about the physical building and its operational characteristics.

(B) “Building Energy Benchmarking” shall mean the process of measuring a building’s Energy use, tracking that use over time, and comparing performance to similar buildings.

(C) Supervisor shall mean the head of the Department.

(4) “Covered Municipal Building” shall mean a building or facility that is owned or occupied by the Town of Marblatown that is 1,000 square feet or larger in size.

(5) “Department” shall mean the Bookkeeping assigned the responsibility of administering the Energy benchmarking program.

(6) “Energy” shall mean electricity, natural gas, steam, hot or chilled water, fuel oil, or other product for use in a building, or renewable on-site electricity generation, for purposes of providing heating, cooling, lighting, water heating, or for powering or fueling other end-uses in the building and related facilities, as reflected in Utility bills or other documentation of actual Energy use.

(7) “Energy Performance Score” shall mean the numeric rating generated by Portfolio Manager that compares the Energy usage of the building to that of similar buildings.

(8) “Energy Use Intensity (EUI)” shall mean the kBtUs (1,000 British Thermal Units) used per square foot of gross floor area.

(9) “Gross Floor Area” shall mean the total number of enclosed square feet measured between the exterior surfaces of the fixed walls within any structure used or intended for supporting or sheltering any use or occupancy.

(11) “Portfolio Manager” shall mean ENERGY STAR Portfolio Manager, the internet-based tool developed and maintained by the United States Environmental Protection Agency to track and assess the relative Energy performance of buildings nationwide, or successor.

(12) “Utility” shall mean an entity that distributes and sells Energy to Covered Municipal Buildings.
