**Subject:** RE: Town of Bethel, Town of Tusten

Hello Niklas,

On 3/8, I received CSCC doc from Rita from Bethel for four different actions: 1.1, 1.2, 2.2, and 6.6. Nothing from Tusten yet.

Neither Bethel nor Tusten submitted any CSCC doc prior to 3/8.

All doc is reviewed on a case-by-case basis, so I cannot make any guarantees of points earned until the review is complete. However, the Mid-Hudson GHG inventory can be the basis for 2.2 provided it is submitted soon (to stay within the 5-year eligibility timeframe) and provided the doc is a report, not just a spreadsheet. It can be a short report, but it should have some narrative text that shows some level of reflection on the results of the inventory and how those results relate to the community's priorities.

There is a community GHG inventory exec. summary report template specifically made by VHB for the Mid-Hudson region that might be useful in preparing doc for 2.2; it is available online at [http://www.midhudsoncsc.org/documents/Mid-Hudson\\_Comm\\_GHG\\_ExecSum\\_Template.docx](http://www.midhudsoncsc.org/documents/Mid-Hudson_Comm_GHG_ExecSum_Template.docx).

**Subject:** CSC: Town of Bethel, Town of Tusten

Hi Dazzle,

Today I met with the Town of Bethel and Town of Tusten to go over CSC.

Have either of the Towns submitted for credit prior to today's submissions?

Does the Mid-Hudson Regional Greenhouse Gas Emissions Inventory (2012) get communities points under 2.2 or is something else needed?

Did you get Bethel's submissions today?

Thank you and Happy Woman's Day,  
Niklas
