To Whom It May Concern:

As Town of Tusten Supervisor, I, Carol Ropke Wingert, established the Committee for Energy Plan on 2/13/2012 which changed its name two weeks later to the Tusten Energy Committee. I appointed the Chair and other members to the committee and subsequently recognized the Tusten Energy Committee as the Climate Smart Task Force. The Committee has met regularly since its inception and has been working on the Climate Smart Communities Program, Clean Communities Program and other initiatives which would increase the Town's sustainability.

Sincerely Yours,
