Re: Final Approval for 11.4 kW PV Net Metering Interconnection

Dear Tom Baldino:

On January 17, 2011, a successful site verification test was performed on your photovoltaic installation. This test represents the final step in Central Hudson Gas and Electric Corporation's (CHGE) acceptance process. Your installation has been found to meet all necessary CHGE interconnection requirements and you are now a fully qualified 'Net Metering' customer.

If you have any questions or if I may be of any further assistance, please feel free to contact me directly at 845-486-5505.

Regards,
