

# Smart Waste & Recycling Stations

Beautify and enhance your space while improving operational efficiency. High capacity stations for busy areas and standard capacity stations for less busy or outlying areas. Ideal for cities, towns, parks, universities, corporate campuses and retail environments.

- ▶ Eliminate visible waste and wind-blown litter
- ▶ Prevent rodent and bird access
- ▶ Enable "front of house" recycling
- ▶ Reduce collection truck traffic, Fuel consumption and CO<sub>2</sub> emissions
- ▶ Cut collections by 70% - 80%
- ▶ Increase public approval and reduce complaints

### Standard Capacity

50 Gal / 190 L

### High Capacity - Compactor

150 Gal / 570 L
