RED HOOK TO CONSTRUCT ELECTRIC VEHICLE CHARGING STATIONS AT TOWN HALL WITH NYS DEPARTMENT OF CONSERVATION GRANT

The Town of Red Hook continues its work to create a cleaner and more resilient community with the successful rebate grant award of \$26,349 to construct 4 Level 2 charging stations at the Town Hall parking lot. New York State's Municipal Zero-Emission Vehicle (ZEV) & ZEV infrastructure rebate program provides municipalities with 80% of the funds necessary to purchase electric vehicles for fleets and charging stations. The Town will match the grant with in-kind services. The stations come equipped with a network and software that will enable the public to reserve spots in advance. Part of DEC's incentives to "Go Electric," include reimbursing the cost of charging for the first two years.

"The Town of Red Hook is pleased to partner with NYS in building out the necessary infrastructure so that we can all move towards a healthier community for years to come."
