I, **Mike Hines** (Contact Name), a representative of **Montour Falls Fire Dept** (Customer) am duly authorized to sign this Customer Authorization Form on behalf of Customer.

Customer hereby authorizes ("**EnerPath Services, Inc.**" (**ESI or EnerPath**) – Program Manager and its "Contractor") to perform the following work (the "Work"): Replace and/or retrofit certain lighting and/or refrigeration equipment with the new, energy efficient lighting and/or refrigeration equipment at the Service Address set forth above and specified on the Energy Savings Opportunities Report (attached hereto) prepared by EnerPath for Customer's Facility. Customer acknowledges that Contractor has been authorized by the New York State Electric & Gas and Rochester Gas and Electric Corporations ("NYSEG and RG&E" or "Utility") to contact Customer only with regard to performing the Work, and that any other services, installations, improvements or equipment provided to Customer by Contractor have not been authorized by NYSEG and RG&E, and NYSEG and RG&E assume no responsibility therefore.

Customer hereby agrees that NYSEG and RG&E make no warranty, expressed or implied, with respect to the Work, including without limitation the implied warranties of merchantability and fitness for a particular purpose. Customer hereby agrees to hold harmless NYSEG and RG&E, its officers, directors, and employees, from and against any and all liability, damages, losses, claims, demands, actions, costs, including attorneys' fees and expenses, and all court or arbitration or other dispute resolution costs, or any of them, resulting from arising out of, or in any way directly connected with Work performed by Contractor. Customer hereby agrees to hold the Contractor solely responsible for any and all claims, losses, liabilities, damages and expenses, including attorneys' fees and costs, which Customer may incur as a result of the Work.

Customer acknowledges that connected load at Customer's Facility may increase if the Work involves replacing burned out or missing lamps.

Customer understands that any materials removed (i.e. old ballast, lamps, and motors) will be taken by the installation contractor and staged for pickup and disposal by a licensed hazardous disposal contractor. Customer understands that Utility may inspect and verify that the Work was performed, and hereby permits NYSEG and RG&E reasonable access to Customer's Facility for such purpose. Customer also understands that they may be contacted regarding program evaluation and agrees to cooperate in providing needed information for the purpose of evaluation.

Customer acknowledges that certain data made available through the Energy Savings Opportunities Report may be used for the purpose of evaluating the program and analyzing energy related assets and consumption data at the Service Address set forth above and Customer consents to use of this data for the purpose of this program, and in providing Customer additional information as may be related to other energy efficiency or demand response programs or opportunities. The data will be used only for this purpose and confidentiality will be strictly protected.

EnerPath Services, Inc. will assess a "returned check charge" on any payment returned by the bank due to non-sufficient funds. The amount now due would be the previous amount owed plus a NSF charge of \$25.00. An immediate remittance of payment will be needed for the non-sufficient funds by cashier's check, money order or credit card including the NSF charge before any further work is performed.
