

Irvington has been an active member of Sustainable Westchester since 2014. We have submitted the most recent dues payment as documentation of our continued membership. Also, we routinely participate in initiatives undertaken by Sustainable Westchester.

The most recent activity was the renewal of the Westchester Power (Community Choice Aggregation). The Village signed the agreement in September 2020 and a presentation was made by a representative of Sustainable Westchester at a public meeting in July 2020. A link to the video is below. The presentation is at the very beginning of the meeting.
