Subject: Introducing our new Rideshare Portal!

Dear Employee,

We are excited to announce that we are currently partnering with New York State's 511NY network to bring Westchester County government employees a one-stop shop for all your commuting needs. With 511NY, you can find convenient ride matches, transit and vanpool information, bicycle and walking routes, and learn more about alternative transportation options that will save you time and money, and are energy efficient. You'll also have access to New York State's network for real-time travel, transit and traffic updates at 511NY.org.

Getting started is quick, easy and FREE. To find a ride match and learn more about your commuting options click here and register: <https://511nyrideshare.org/web/Westchester-County/home> .

You will then receive an email from ridematch @ 511NYRideshare.org with simple instructions for activating your Westchester County Rideshare account. Once you activate it, you can start searching for ride matches that will help you save time and money on your commute today!

Safe Travels,

Robert P. Astorino
County Executive
