Peter McCartt  
Michaelian Office Building  
148 Martine Ave.  
White Plains, NY  
10601

Dear Peter McCartt,

Welcome to the County Climate Coalition. Thank you for joining the coalition and committing to reduce greenhouse gas emissions in your community.

We look forward to working with you to reaffirm America's commitment to the Paris Agreement and ambitious action to address climate change.

As a member of the County Climate Coalition, you're part of a growing movement of counties working to solve the climate crisis. Counties like yours are already taking proven, practical steps to shrink emissions and increase sustainability, including:

- Developing renewable energy
- Supporting alternative community energy providers
- Enhancing waste diversion
- Choosing environmentally friendly vehicles
- Reducing water use

...and so much more.

Through these efforts, coalition counties aren't just reducing pollution, they're also protecting public health, fostering innovation, and creating healthier and more just communities for residents.

The result is a coalition of counties leading by example and showing the federal government that we can meet our Paris Agreement goals while building strong economies and thriving communities.

We're excited to have you as a part of this growing movement. In this welcome packet, you'll find more information on the County Climate Coalition, including media resources, coalition contacts, and resources on cutting greenhouse gas emissions.

We look forward to working together and building a powerful network of pro-climate counties committed to the Paris process all across the country. Please contact the County Office of Sustainability if you have any questions or suggestions.

The Climate Reality Project

### ***About the Climate Reality Project***

Founded by Nobel Laureate and former US Vice President Al Gore, The Climate Reality Project is working to catalyze a global solution to the climate crisis by making urgent action a necessity across every level of society. With a global movement more than five million strong and a grassroots network of trained Climate Reality Leader activists, we are spreading the truth about the climate crisis and building popular support for clean energy solutions.
