

Tompkins County Council of Governments (TCCOG) is an association of local governments organized to provide a forum for discussion and negotiation leading to agreements for more efficient and fiscally responsible delivery of local government services.

The TCCOG Energy Subcommittee is exploring Community Choice Aggregation (CCA) which allows local governments to choose where the energy comes from for their community. CCA is a municipal energy procurement model that replaces the utility as the default supplier of electricity for virtually all homes and small businesses within a jurisdiction.

Energy Subcommittee Current Membership:

Luis Aguirre-Torres: Sustainability Director, City of Ithaca
