**March 2022 Village of Bronxville**

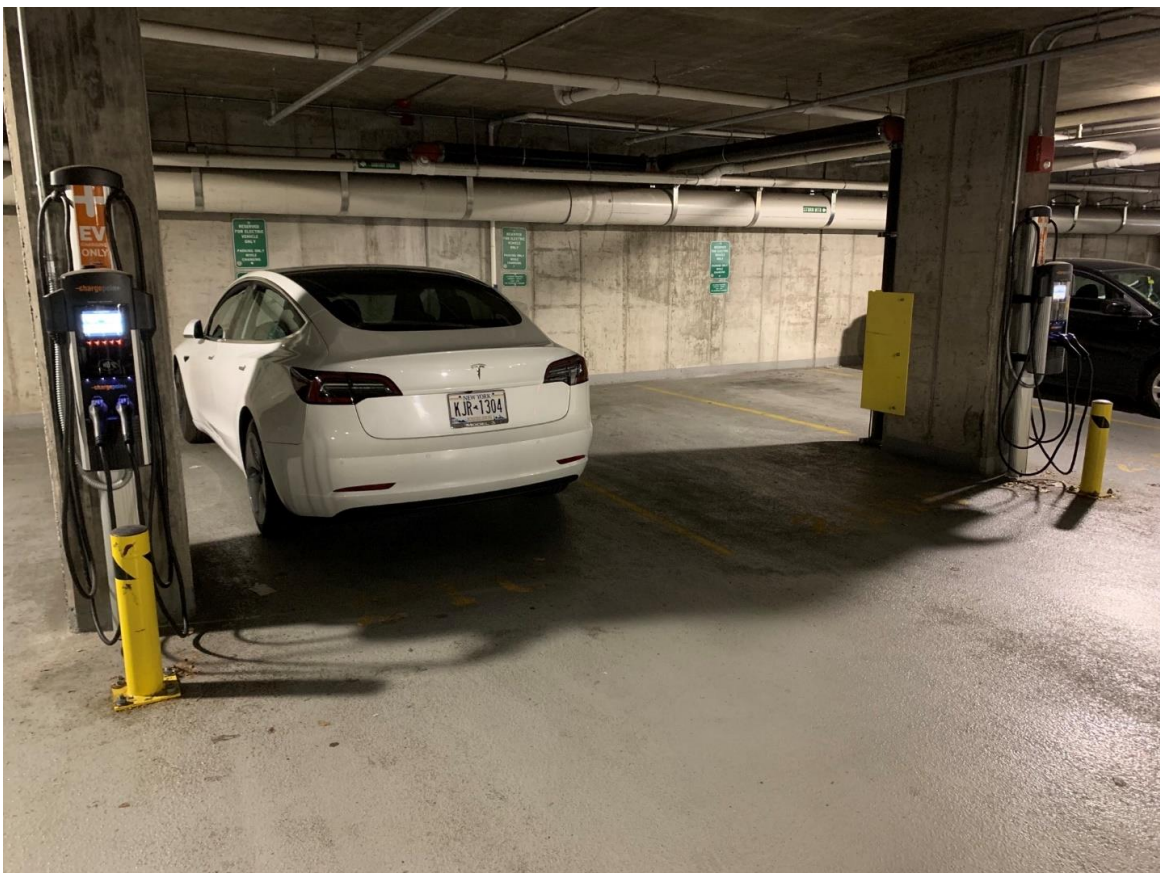

**Charging Stations**

Since July 2019, the Village has installed a total of three dual port level 2 charging stations. One electric vehicle charging station is located within our Parkway Road lot (120 Parkway Road) and two electric vehicle charging stations are located within our Kensington Garage (115 Kensington Road).

These stations have been installed and made available for use with the objective of reducing vehicle emissions and encouraging our residents, merchants and visitors to purchase (or consider) electric vehicles.

The electric vehicle charging stations are currently set up to provide access to EV Permit Holders from 7:00AM - 3:00PM Monday through Friday. After 3:00PM and all day Saturday and Sunday, the stations can be accessed by any member of the public who wishes to use them.
