

Alternative Fuel Infrastructure
Recertification for 16 points
Town of Bedford
07/05/22

We are seeking 14 points for 7 EV charging stations and an additional 2 points because a number of the stations are public. Attached are two invoices for the installation of seven electric vehicle charging stations. The first invoice from 12-20-17 contains documentation for the installation of a total of six charging stations across town and the second invoice (307 Bedford Road) contains documentation for an additional one. Hours of operation and relationship to pricing is included with the first invoice for the installation of the charging station at Bedford Village Memorial Park. Also attached is a copy of a NYSEG Bill showing proof of use. Included is a photo document with current photos of all 6 charging stations.

Below are screenshots of the six active chargers on Plugshare demonstrating that the chargers are currently active and available to the public.
